

Less humidity, more silence

The bathroom fans in our series of "ultra-quiet" especially designed for the bathroom. They can be installed in the bathroom as well as in other humid areas of the house. These contemporary-style bathroom fans ensure superior ambient air quality by quickly evacuating humidity from the room.

Moreover, they are certified by the Home Ventilating Institute (HVI) and have earned the ENERGY STAR®.

Approved for installations above the shower or bath when installed on a (GFCI) protected circuit.

{features}
