

**Programming at your fingertips!**

The **STE402P** programmable electronic thermostat can be used to control electric heating units with or without fans and a capacity up to 4000 W. It has an easy user interface and can manage up to 4 programming periods a day. Thanks to its programming mode, you can leave home with peace of mind. Moreover, you can lock the thermostat at a maximum temperature set point, which is very useful, especially when you have kids.

**{features}**

<b>color</b>	white (W), almond (A) or silver (S)
<b>finish</b>	epoxy-polyester powdercoat
<b>manufacturing</b>	<ul style="list-style-type: none"> <li>compatible with forced-air units</li> <li>made in Canada</li> </ul>
<b>wattage &amp; voltage</b>	<ul style="list-style-type: none"> <li>150 to 2000 W @ 120 V</li> <li>260 to 3475 W @ 208 V</li> <li>300 to 4000 W @ 240 V</li> </ul>
<b>control</b>	<ul style="list-style-type: none"> <li>accurate temperature control</li> <li>button which allow to easily choose the desired preprogramming</li> <li>it is possible to program 4 periods a day</li> <li>anticipated start (the thermostat reaches the desired temperature at the requested hour)</li> <li>frost-free warning and Off position</li> <li>lock option at a maximum temperature set point</li> <li>protection against power failure (2 hours)</li> <li>display in either Celsius or Fahrenheit</li> </ul>
<b>accuracy</b>	± 0,15 °C (± 0,27 °F)
<b>temperature range</b>	between 3 and 30 °C (37 to 86 °F)
<b>warranty</b>	3 years

STE402P

**preprogrammings**  
more than 250 pre-programming possibilities using a single button

**anticipated start**  
the thermostat reaches the desired temperature at the requested hour

**frost-free**  
frost-free warning and Off position

**lock**  
lock option at a maximum temperature set point

**digital screen**  
display in either Celsius or Fahrenheit

**power failures**  
saves the parameters (two hours)

**fan**  
compatible with forced-air units
